Easily viewable throughout the venue. Displays in-house promotional ads, video content, photos, interactive social applications and information about current, last and next song playing.

BELT

Displays the applications available on the Revo, including Foursquare, Facebook Photos, Upcoming Events, Cab Finder, and more.

BASE

The industry leading Ecast jukebox interface with our massive music catalog searchable by artist, album, or song.

GUTS

Swinging door allows for easy access to the cash box, hard drive, motherboard, and AVC Preamp.

THE OFFICIAL NAME FOR CHANGE IN THE DIGITAL JUKEBOX MARKET

Extreme Design, Extreme Flexibility

Revo was engineered to give operators extreme choice and ultra flexibility. When operators asked for a music solution that met their needs across diverse locations and routes, Ecast delivered with Revo's innovative design and attractive price point. Now, digital jukebox operators have a price/performance option that provides their location owners with a state-of-the-art, digital music solution that meets every requirement.

- An enhanced music experience to improve profitability across operators' routes
- Flexibility to manage their business and optimize revenue by location
- Juke 4 Enhanced™, upgraded Preamp and next-generation motherboard improve stability, uptime and reliability
- Social Media Bundle and Recommendation Engine drive user engagement and increase revenues

JUKE 4 ENHANCED™ AND SOCIAL MEDIA BUNDLE DRIVE USER ENGAGEMENT

The launch of Revo was timed to take advantage of our Juke 4 Enhanced software, the most innovative and user-friendly digital music software solution available on the market.

Ecast has also integrated popular social networking applications to help location owners take advantage of the unmatched marketing power of social media. By simply updating their Facebook, Twitter, or

Foursquare page, locations can use Revo to engage their customers with:

- Special Offers
- Weekly Promotions
- Upcoming Events
- Facebook Wall Posts
- Artist and Location-Based Photos
- Twitter Feeds
